

THE XJ COLLECTION

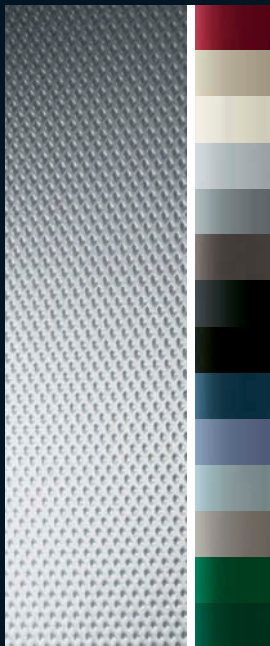

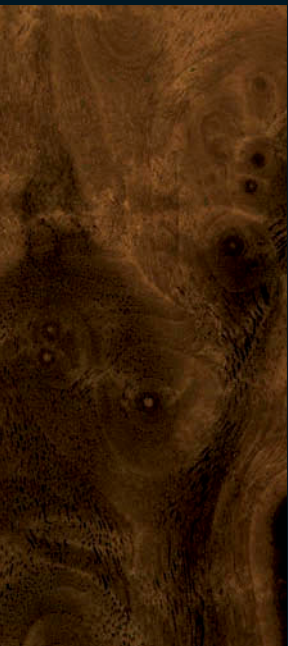

JAGUAR

The aluminium XJ 6-9. AGILITY and DRIVER TECHNOLOGY 10-11.  
Engine choice 12-15. Safety 16-23. CRAFTSMANSHIP 24-25.  
LUXURY and COMFORT 26-27. CHOICES and options 28-33.  
Standard features, choices AND technical specifications 34-51.  
*Owning your XJ* 52-53.

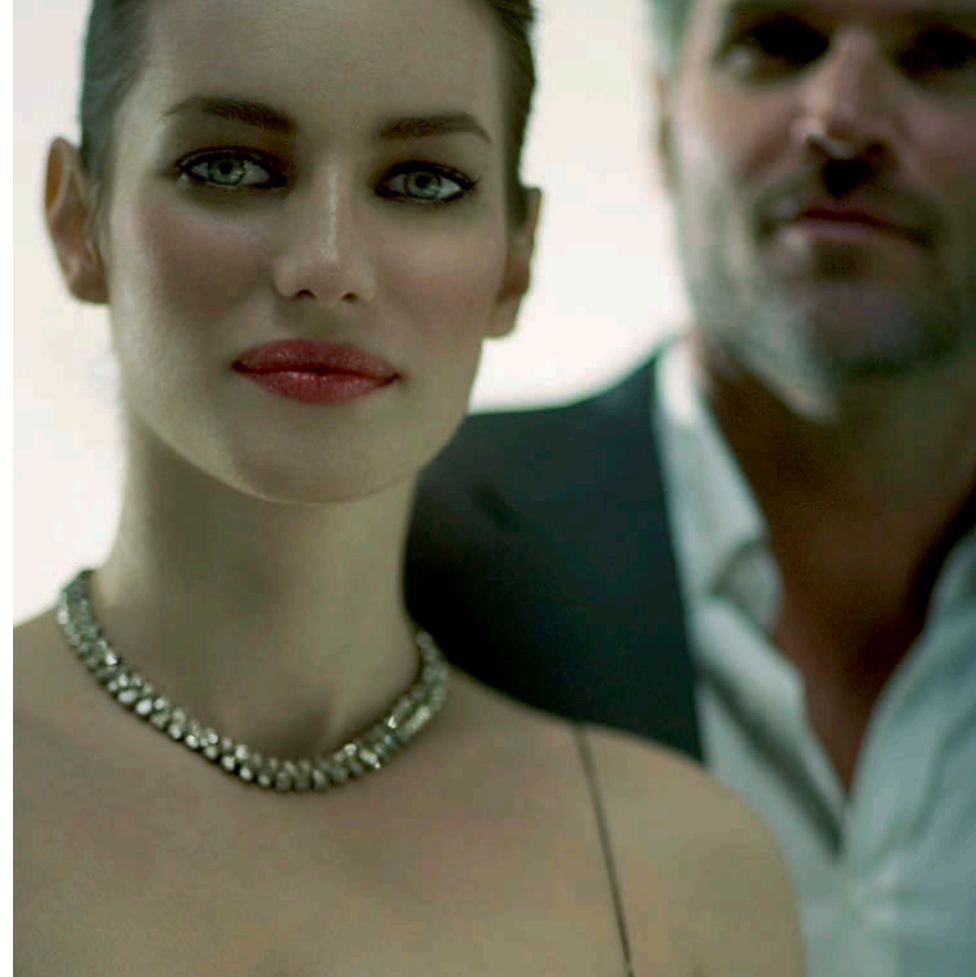

You may feel you know  
the JAGUAR XJ, but take  
a closer look and it might  
still be able to *surprise* you.

There is more to the XJ than elegant design. The XJ is also about substance and character - all underpinned by leading-edge technology. For JAGUAR, technology is the means, not the end - the servant not the master.

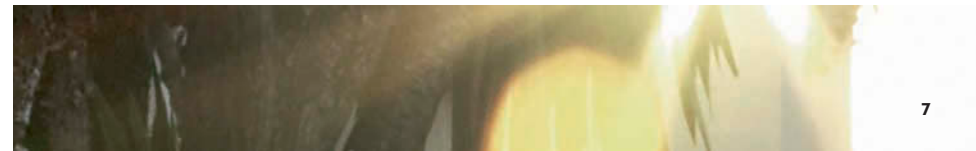

Take the XJ's unique all-aluminium monocoque body structure. The techniques and materials derive from the aerospace industry, but the benefits are firmly down to earth. Huge strength with exceptional lightness defies convention by rejecting compromise, and that is the aluminium XJ's underlying beauty - a large saloon that isn't heavy, a luxurious saloon that's both agile and sporty, a beautiful saloon that uses advanced technology intelligently. A new-generation JAGUAR.

Lower weight and increased rigidity are platforms for safety, for performance, for dynamic handling and for fuel efficiency. Without unwanted weight, power is never wasted, acceleration is quicker, steering is more responsive, brakes and suspension are less stressed, economy is not just a wish.

Aluminium construction re-writes the rules, the elegant luxury of the XJ seizes the advantage. JAGUAR has shifted the boundaries. Light? Fantastic.

JAGUAR

XJ

J A G

VVV

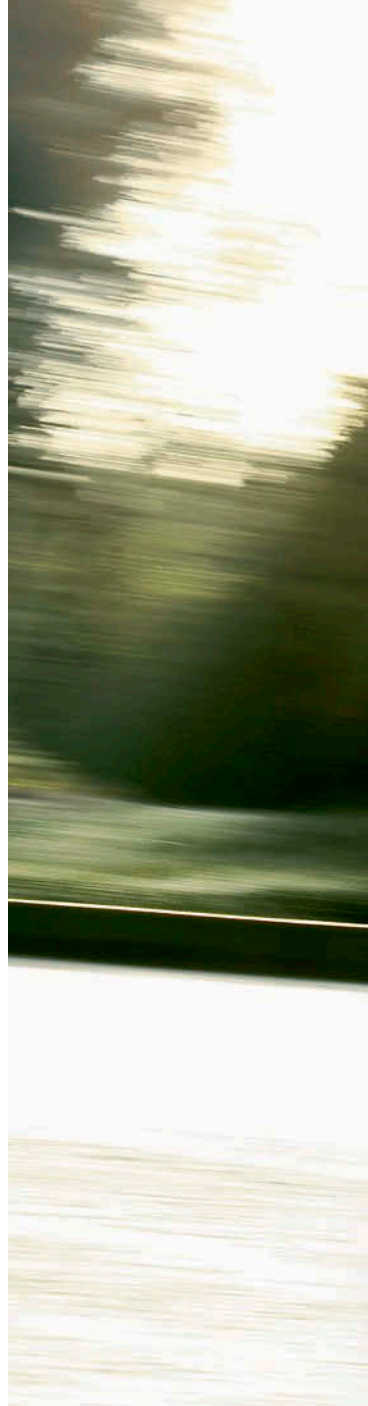

*Agility* and *tenacity* are not normally associated with spacious luxury saloons. Don't imagine that because the ALUMINIUM-BODIED XJ is big and beautiful it is also soft and uninvolved – it is far from it.

CATS™ (Computer Active Technology Suspension) is another advanced means to a highly desirable end – near-magical balance between supple comfort, outstanding body control, passenger-pleasing refinement and sporty, driver-focused responses.

Lightweight suspension links and air springs build on the rigidity and low weight of the aluminium shell, to soak up the rough and focus on the smooth. Automatically variable ride height keeps comfort and control independent of load, and optimises stability and aerodynamic efficiency at speed. The adaptive control of CATS™ means the XJ is always in tune with the road's condition and the driver's inputs.

Again, intelligent use of technology gives the XJ the talent to surprise.

Because we are *not all the same*, the XJ offers a range of engines to cover all preferences. Because we do all want the best balance between PERFORMANCE, REFINEMENT AND ECONOMY, JAGUAR has designed that into every XJ engine - from the powerful and economical 207PS 2.7 LITRE TWIN TURBOCHARGED V6 DIESEL\*, through the light and compact 235PS 3.0 LITRE V6 PETROL, to the 298PS 4.2 LITRE V8 PETROL and the SUPERCHARGED 395PS V8 that powers the XJR and Super V8\*.

Again, prepare to be surprised - by powerful, efficient petrol engines and a diesel that is simply astonishing in its breadth of talent.

It was designed from a clean sheet to be one of the strongest and most refined diesels in the world. It has lightweight Compacted Graphite Iron (CGI) construction, high-pressure common-rail direct injection and multi-phase injection timing, and delivers a huge spread of torque with smoothness, economy and CO<sub>2</sub> emissions of just 209g/km. Its Diesel Particulate Filter (DPF) system means the outside world will never see a wisp of smoke, while its electronically controlled 'active' engine mounts mean those inside will never be ruffled by noise or vibration. This is diesel power with perfect manners.

You have the choice, but with XJ it no longer involves compromise.

\*Please consult your dealer for engine availability.

**VVV 808**

To mean anything at all,  
PERFORMANCE has to be about  
much *more than numbers*.

To be completely satisfying, performance must be underpinned by security, confidence and control, and maybe a little understatement. Best of all is performance with something in reserve – performance without having to try too hard.

That's the philosophy behind the R badge, and the personality of the XJR\*. Signature features like the 20-inch wheels are about function not fashion. Unique styling cues such as the aluminium finish power vents and black painted brake calipers say 'sporting' just loudly enough to set the XJR apart without losing its subtlety.

Like every XJ it starts with lightness on its side, then adds the effortless power of JAGUAR's 395ps 4.2 LITRE SUPERCHARGED V8, which has the ability to take the XJR from 0-100km/h in just 5.3 seconds. But it's the controlled suppleness of the XJR's sports suspension and powerful reassurance of its high performance R braking system, that make that performance even more satisfying. So if you want it that way, you don't have to shout about it.

\*Please consult your dealer for market availability.

In a world of *great journeys* just waiting to happen, JAGUAR still believes in the pure joy of driving, and whatever it takes to deliver it.

So before it earned its badge, the XJ had proved itself in the heat of the Arizona desert and near-Arctic cold of northern Canada. It had tested engines, brakes and the cooling system to the limit over some of Europe's highest and steepest mountain passes, often towing a maximum load. In durability tests it had run the equivalent of 160,000 kilometres of high-speed autobahn driving, and chalked up 240,000 kilometres of 'whole life' use. Twice.

JAGUAR also has one special ribbon of road that it returns to over and over again. Just over 22 kilometres long, twisting through the Eiffel forest, it packs in 73 corners and every kind of road surface, camber and incline. It is the 'Nordschleife' of the

legendary Nurburgring - opened in the 1920s as a Grand Prix circuit, and still regarded by the most demanding engineers in the world as the ultimate test of what makes a great car great.

The XJ ran some 8,000 near-the-limit kilometres on 'the green hell', honing its six-speed automatic transmission, variable ratio power steering, electronically controlled air suspension and Dynamic Stability Control (DSC) - so you can be confident that a great drive in the XJ will be exactly that.

JAGUAR believes deeply in the *pure enjoyment* of driving, and that includes easing away some of the pressures without diluting any of the *pleasure*. So the XJ has a discreet armoury of TECHNOLOGIES that help protect the driver without ever making a fuss about it.

They are technologies that define how the XJ feels on the road, keep a watchful eye on those you share it with, and look out for all those things that could spoil your day. The feel of comfort and control starts with **SELF LEVELLING AIR SUSPENSION** that avoids the compromises of conventional springs in a car with the XJ's lightweight aluminium construction. So whether you're alone or fully loaded, the XJ rides with the same composure and handles with the same fluency. The only time its ride height will vary is to improve aerodynamic efficiency and fuel economy at motorway cruising speeds. Beyond that, **CATS™ (COMPUTER ACTIVE TECHNOLOGY SUSPENSION)** subtly adapts the XJ's ride and handling characteristics to changes of conditions, optimising its damping programmes between soft and firm when the road turns smooth or bumpy, straight or twisting, reducing harshness under braking, and improving high-speed stability.

When the road is slippery, **TRACTION CONTROL** helps keep driven wheels from spinning as you're driving away or accelerating – at traffic lights or T-junctions – and reacts even in mid-corner to resist the rear end breaking away when power outweighs grip. Drive harder and you'll be supported by **DYNAMIC STABILITY CONTROL (DSC)**, an active safety system that helps you enjoy the XJ's limits without overstepping them. DSC constantly monitors data from a host of variables – the shape of the road, the conditions, the driver's inputs; and when the balance is wrong the system restores it – by smooth control of throttle and brakes to help restore grip and steering responses. It doesn't spoil your enjoyment by intervening when it isn't needed, and if you really know both conditions and skills are right, it even has an off-switch.

On the long motorway cruise, JAGUAR's award-winning optional **ADAPTIVE CRUISE CONTROL (ACC)\*** not only maintains a constant speed, it uses radar technology to monitor traffic ahead of you and adjust your speed to keep your distance. It is designed to know your braking distances, and to increase the gap as traffic moves faster. When it needs to, it intervenes by applying the brakes, so however busy the road you won't be continuously turning cruise on and off. In addition, **FORWARD ALERT** works with ACC (even when ACC is switched off) to warn that the gap to slow moving traffic ahead is too small, so the driver can respond by braking as necessary. With or without ACC in action, the XJ's standard-fit **AUTOMATIC SPEED LIMITER** can memorise a chosen maximum speed and limit the throttle response if the driver is about to exceed it – but with kick-down cancellation if the extra speed is needed. Even when your drive is over, **PARKING AIDS** at both the front and rear of the XJ will help you manoeuvre when space or visibility are limited, with audible warnings to tell you when close becomes too close.

\*Please consult your dealer for availability.

To feel really *happy*, you must feel **SECURE**. To feel secure, you must have trust. In the XJ, you are cradled in strong arms, protected without needing to think about it.

You will only fully know the strength of aluminium construction, side impact protection, crumple zones and multiple airbags if ever you really need to know. You will always appreciate the powerful Teves braking system, but may never be aware of the Anti-lock Braking System (ABS), Electronic Brakeforce Distribution (EBD) and Emergency Brake Assist (EBA), although they are always there. You may never run over the sharp object in the road, but if you do, Tyre Pressure Monitoring System (TPMS), where fitted, is designed to tell you about it before a nuisance becomes a danger. In the front of the XJ you will be in seats that sense your weight and position, absorb bumps and with advanced seatbelts that help guard against whiplash. If the dictionary says ARTS™ (Adaptive Restraint Technology System), it means enhanced protection if things go wrong.

In the XJ, safety is enhanced by some of JAGUAR's most SOPHISTICATED TECHNOLOGY – but one thing is fundamental, the XJ's aluminium construction. Underpinning all its other benefits is a bodyshell that is *lighter, stronger* and more *rigid* than an equivalent shell construction from steel. So it will strike any other object with less force, and will have significantly less energy to be absorbed by the car's safety structure during any impact. Which isn't only good for the XJ's occupants, it's good for other road-users, too.

The XJ considers safety from the ground up, with the availability of a **TYRE PRESSURE MONITORING SYSTEM (TPMS)** to warn the driver of any change in pressure – reducing the risk of unexpected failures as well as enhancing ride, handling and fuel economy. The XJ considers safety from all angles. Every door is equipped with **SIDE IMPACT PROTECTION** to help shield the occupant cell, while foam blocks within the doors further help with the absorption of energy. Inside that cell, every occupant has a huge range of **INTERIOR SAFETY FEATURES** on their side, from airbags to sophisticated seatbelt systems to the seats themselves. The XJ's **AIRBAG SYSTEMS** include two-stage **DRIVER AND FRONT PASSENGER AIRBAGS** that are designed to deploy with minimum unwanted effects. Front seat **THORAX AIRBAGS** are standard and help provide thorax and rib protection, and rapid-fill **CURTAIN AIRBAGS** along both sides of the car help enhance head protection to front and rear occupants in a side impact.

To JAGUAR, safety is a whole-picture issue, and the XJ's **ADVANCED RESTRAINT TECHNOLOGY SYSTEM (ARTS™)** combines an array of sophisticated technologies that give improved protection for front seat passengers in a frontal impact.

With ARTS™, the XJ's front seats are comprehensive safety systems in their own right. Those dual-stage airbags are controlled by a **RESTRAINT CONTROL MODULE** whose six crash sensors are designed to determine exactly what airbag response is appropriate. **SEAT WEIGHT SENSING** detects whether the passenger seat is occupied, and senses the occupant's weight range; the **SEAT TRACK POSITION SENSOR** detects the fore and aft position of the driver's seat; the **OCCUPANT POSITION SENSOR** detects the front passenger's position in the seat; and the **SEAT BUCKLE SENSOR** monitors the status of the front belts. Together, all combine to reduce unnecessary passenger airbag deployments, and, when an airbag is deployed, to reduce the risk of airbag-induced injuries. Both front seats also include JAGUAR's **WHIPLASH REDUCTION SYSTEM**, and **LOAD LIMITING SEAT BELT RETRACTORS** which, when activated, progressively ease belt tension before contact with the airbag, to help provide a 'soft landing'. Every seat, front and rear, has an **ANTI-SUBMARINING** design with **THREE-POINT INERTIA REEL SEAT BELTS** and **PYROTECHNIC PRE-TENSIONER** belt retracting mechanisms.

For JAGUAR, *craftsmanship* is everything, but *craftsmanship* doesn't mean doing things the old way, it means doing them the best way that MODERN METHODS can deliver - so anything you see and touch tells you that it was created by someone who actually cared.

In fact craftsmanship begins with the big things like the lightweight aluminium shell and refined powertrains, but craftsmanship is also about tiny details such as embossed headrests, and never being satisfied, about precision, beauty and endless perfecting. It is about leather and wood and deep carpets, but with a thoroughly modern design language to sit comfortably alongside technical materials like textured aluminium. So JAGUAR's leather still comes from farms without wire fences to scratch the hides; and the wood you see is really wood - hand selected, with every piece of veneer hand crafted and 'mirror matched'. But, like the leather, the range of grains and finishes is utterly contemporary, like fine modern furniture.

Craftsmanship means flawless paint and razor-sharp panel fits. Even the interior sound of the XJ is engineered to a distinctive JAGUAR blueprint - quiet and relaxing over a long journey, mechanically refined, isolated from wind and road noises by acoustic laminated glass and Integrated Acoustic Damping, obsessive against creaks and squeaks, but always with just a hint of that underlying, feline power.

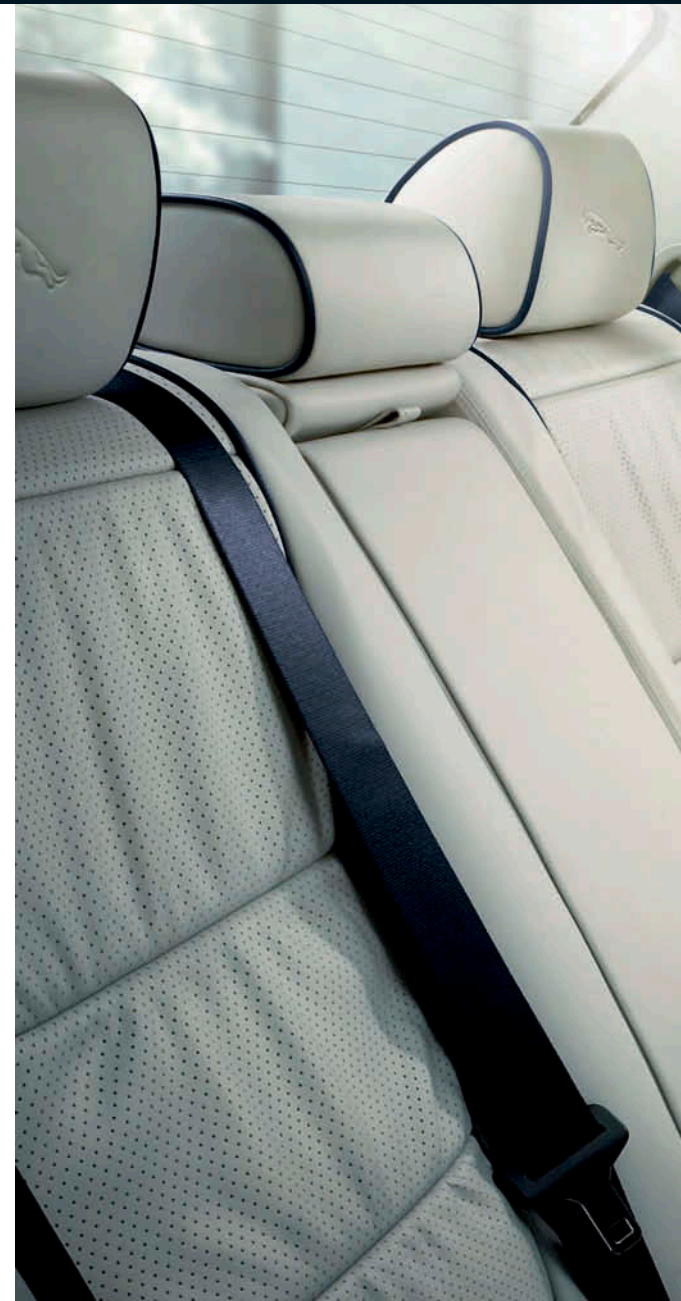

JAGUAR believe that you should *feel even better* when you get out of the XJ than you felt when you got in, and that two things among many in life help us to feel pampered – *time and space*.

The time element the XJ takes care of by shrinking the longest journeys with its comfort and effortless performance; the space part comes as standard, especially in the XJ LONG WHEELBASE, with its acres of rear legroom.

Not that the standard wheelbase XJ is less than sumptuous, but the XJ LONG WHEELBASE is for stretching out and relaxing in, perhaps letting someone else do the driving. Or maybe to double as an office away from the office, with a fine line in luxury. Now there's even more space, even more lifestyle support – even more choice of what makes being on the move easier. Rear seats can be electronically adjustable, and optional four-zone climate control\* gives every occupant their own bubble of comfort. Multimedia screens in the back of each front headrest are also available, to keep you entertained or informed.

\*Not available on Diesel models.

It's beginning to get dark,  
and there are spots of rain in  
the air; lights and wipers come  
on – but you didn't have to do  
anything, the XJ *did it for you.*

Heated front and rear screens stop misting in seconds. As the temperature changes, climate control keeps yours constant, and when outside is hot, ventilated front seats are available to keep you cool. When you need to breathe in, outside mirrors can retract; when roadside space is tight, front and rear parking assist tells you exactly where the space runs out. Satellite Navigation means you need never be lost, Bluetooth® telephone connectivity, where available, means you need never be out of touch, a choice of high-specification audio systems guarantees something to listen to, while optional JaguarVoice™ means that, for some things, you only have to ask.

In the XJ you don't need five hands or a degree in logistics – JAGUAR believes in lots of features but few controls, and the seven-inch Touch-screen puts most of them directly at your fingertips.

JAGUAR not only believes in technology that works, but believes in technology that works for you. Comfort and convenience, certainly, but what you might call Intelligent Luxury, too.

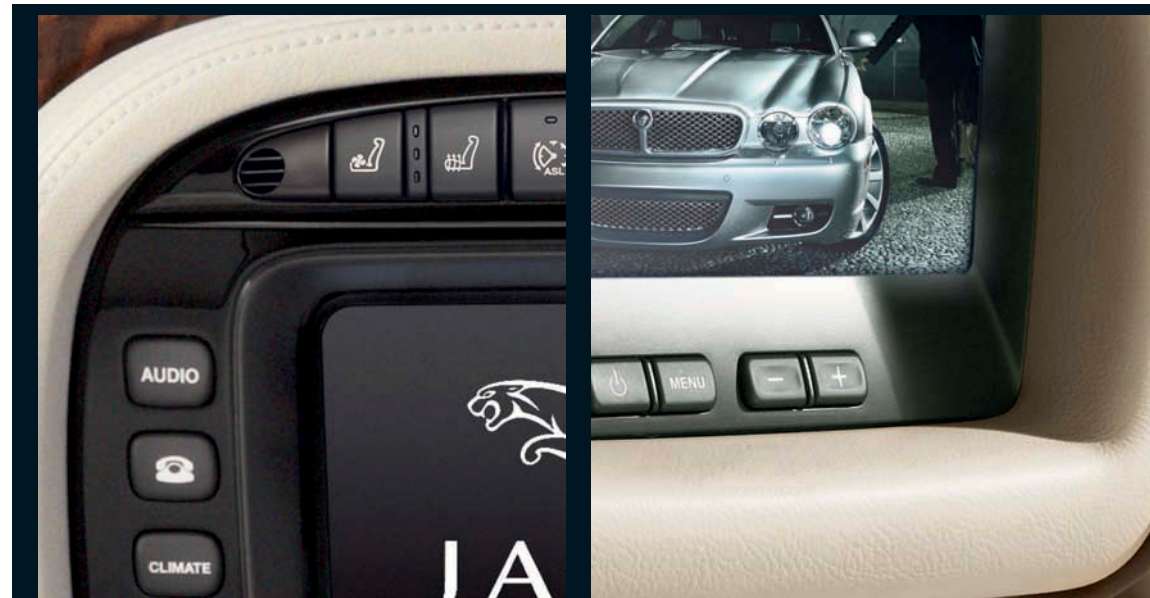

The Bluetooth® wordmark and logos are owned by the Bluetooth SIG., Inc., and use of such wordmarks by JAGUAR Cars Limited is under license.

## 7-INCH TOUCH-SCREEN

JAGUAR has one simple philosophy about technology: to be truly useful, it must be easy to use, and that's as true for creature comforts as for driving aids. So although the XJ bristles with good things, you won't find a confusing excess of dials and buttons. Keeping life simple, the full-colour high-definition seven-inch screen at the centre of the dashboard can be used to control many key functions at the touch of a finger. That starts with the **JAGUAR SOUND SYSTEMS** FM/AM radio and single-slot CD player - all controlled through clear on-screen menus. Its tuner delivers your choice of listening, with 4 x 35W output through full-range speakers in each door. There is also the choice of a six-disc CD changer, and the JAGUAR premium sound system adds Digital Signal Processing (DSP) and optimised EQ equalisation, with twelve speakers to handle its eight-channel 320W output. A **TV SYSTEM** is also available. The **DUAL-ZONE CLIMATE CONTROL** system monitors ambient and cabin temperature humidity and compensates for the sun. There are separate controls for driver and passenger, and with the multi-function screen, everything from temperature to airflow to distribution can be managed at a touch. The Four-Zone option on petrol models gives left and right-side rear passengers independent control, too, from their own panel. **BLUETOOTH® PHONE CONNECTIVITY**, where available, allows up to five separate mobiles to be paired to the car, with Touch-screen dialling, phonebook access and last number redialling lists for compatible phones - all without having to touch the handset. The XJ's standard **SATELLITE NAVIGATION\*** system uses the Touch-screen's large, crystal clear display and DVD-based data store to map your route, set destinations by postcode, store memory points, show carefully selected points of interest, even to show

\* Please consult your dealer for availability.

details of JAGUAR dealers. You could also choose one system that doesn't even ask you to touch the screen – **JAGUARVOICE™**. Once enabled, **JAGUARVOICE™** lets occupants control many systems simply by asking, from climate control and audio or TV settings to telephone commands and navigation. It could hardly be easier.

#### **REAR SCREEN MULTIMEDIA**

The Rear Multimedia System, optional on all models, features 6.5-inch LCD video screens fitted in the back of each front headrest, and a versatile entertainment system with full function iPod and MP3 player compatibility. Rear seat passengers can watch TV even when the driver and front seat passenger can't, and listen through their own accessory headphones. With a control panel in the rear centre armrest and console, they can also choose to listen to the radio or CDs, play video games or even watch DVD movies with the optional DVD Player. So it may be a long time before anyone asks, 'are we there yet?'

#### **MEMORY PACK**

Being comfortable should be easy too, so the XJ remembers just how you like to sit. Its driver's **MEMORY SEAT** has sixteen ways to put everything exactly right. At the touch of a button you can adjust fore and aft, change the height and tilt of the seat cushion both front and rear, recline the backrest and set your preferred lumbar support, or power your headrest to its most comfortable position. You have dual lumbar adjustments too, and can extend or retract the front of the cushion. The Memory Pack means the driver can store three different settings. But not only for the seats: the **MEMORY STEERING WHEEL**

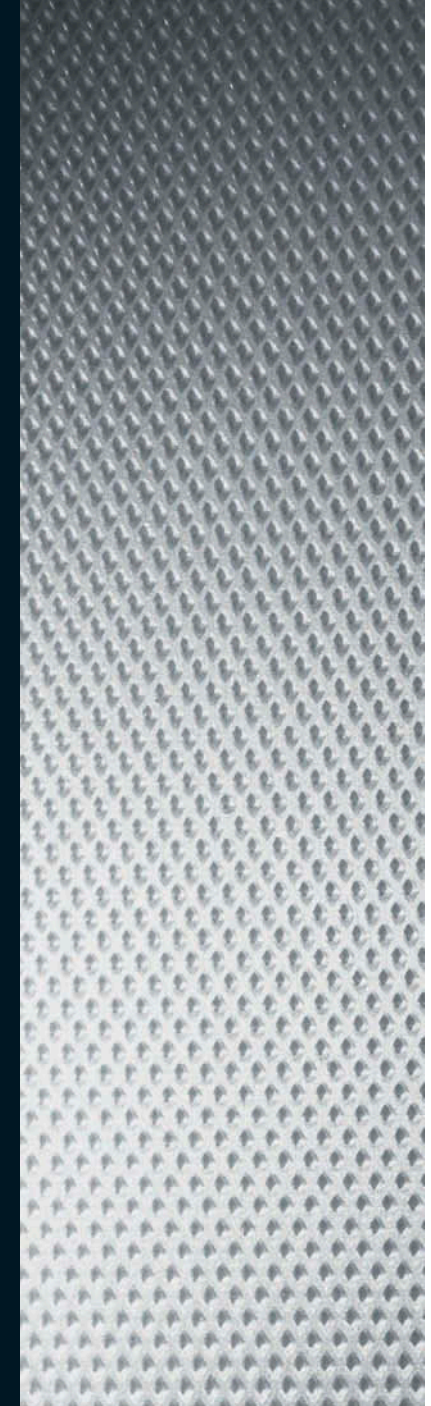

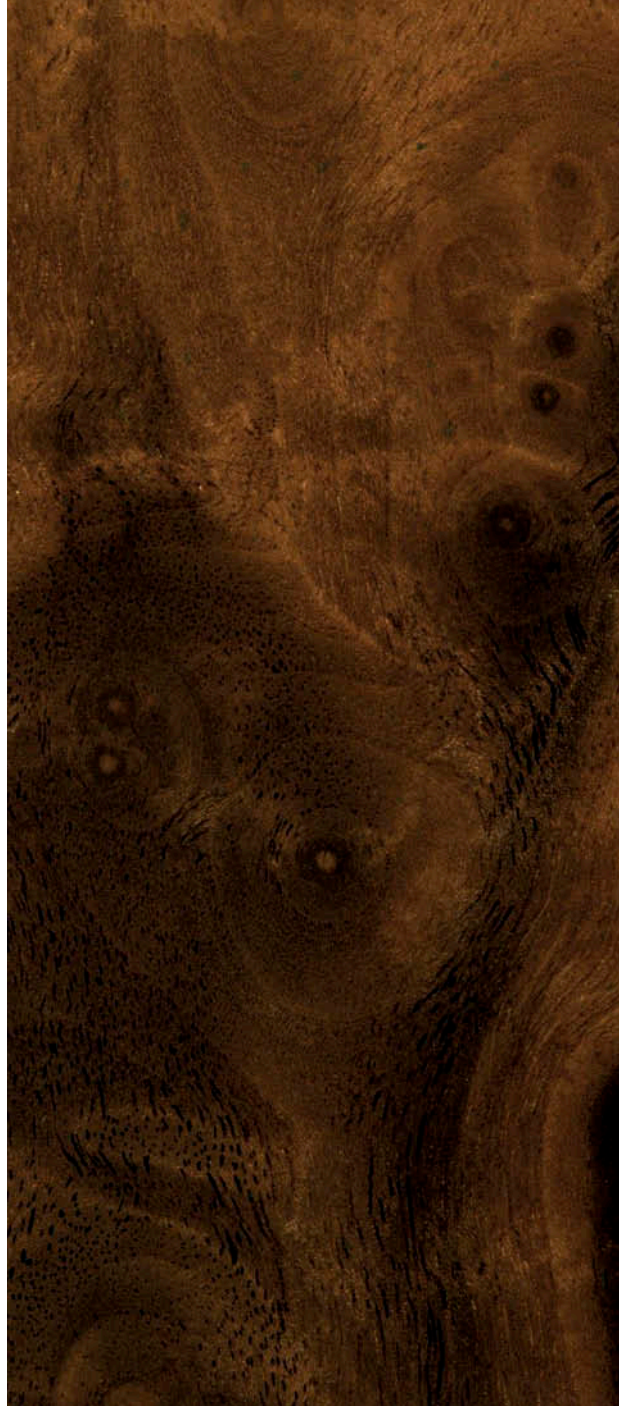

power adjusts for rake and reach, so however you sit you will have the perfect mixture of room, control and visibility; **MEMORY PEDALS** are a typical touch of JAGUAR detail that adds one more level of driving position adjustability, to let you find perfect comfort for your feet and ankles too. So you don't have to search for the optimum outside view, the XJ's **MEMORY MIRRORS** are also part of the programme – once your preferences are stored, even if someone else changes them you can go straight back to where you are most comfortable.

#### **AUTOMATION**

Then there are the final touches that are JAGUAR's driving equivalent of perfect service – the attention to detail that means the XJ will do some of the other important things so you don't have to. So when the windscreen senses spots of rain, the XJ's **RAIN SENSING WINDSCREEN WIPERS** will deal with it, select a setting appropriate to anything from a few drops to a downpour, and even recognise when you stop in traffic. Similarly, when night falls, the XJ's **AUTOMATIC HEADLAMPS** will switch themselves on with perfect timing. They will operate in tunnels and any other low light conditions as well, and if the tunnel ends or the dark clouds disappear, they will switch off automatically too.

iPod is a trademark of Apple Inc., registered in the U.S. and other countries.

One of the *rewards of success* is choice,  
and with the XJ, choosing the ENGINE,  
the COLOUR, the VENEERS, even the  
WHEELBASE, is only the start.

When you're ready to own a JAGUAR, there should be a JAGUAR that's right for you. So if you have a wish, JAGUAR probably has an answer.

The XJ offers more content, more substance, more thought. You can choose to have Adaptive Cruise Control (ACC), alternative alloy wheel designs, sunblinds and sunroof, a JAGUAR premium sound system and those rear multimedia screens. You can have television with your Satellite Navigation, and lambswool rugs under your feet. You can have additional practical touches including versatile towing and carrying options.

The full list is long but the philosophy is very simple: if it's your XJ it's your choice, about you, not about the crowd. After all, you drive a JAGUAR.

▪ Standard and optional features availability differ from market to market. For full details please consult your price list, local dealer or visit jaguar.com  
Please refer to the glossary below for a more detailed description of features.

#### SAFETY AS STANDARD

Adaptive Restraint Technology System (ARTS<sup>™</sup>)

Driver and passenger front airbags

Side curtain airbags

Anti-lock Braking System (ABS)

Emergency Brake Assist (EBA)

Energy absorbent seating system

High level rear stop lamp

Front and rear seatbelt pre-tensioners with belt reminder ISOFIX anchor points for child seat

#### SECURITY AS STANDARD

Security system with remote control central locking deadlocking, drive-away locking, glass breakage, ultrasonic intrusion sensing, vehicle immobiliser and passive sounder with battery back-up.

#### GLOSSARY

**Comfort seats with leather seat facings (12/12 way)** – with electric driver's and passenger's adjustment, with driver memory.

**Softgrain ruched seats with leather seat facings (16/16 way)** – as standard seats plus electric adjustment to cushion length and vertical lumbar for driver's seat, embossed leapers on headrests, contrast piping, leather door panel inserts and leather armrest and insert.

**Cooled front seats** – in addition to heated fronts seats with perforated leather seat facings on front and rear.

**Electric rear bench seats** – heated with individual electric adjustment including recline, lumbar support head restraints and memory (only available with Jaguar premium sound system, rear multimedia controls and Softgrain leather).

**Electric twin rear seats** – heated with centre console, individual electric adjustment including recline, lumbar support, head restraints and front passenger seat adjustment from rear (requires Jaguar premium sound system, rear multimedia controls and Softgrain leather. Not available with Aluminium veneers).

**Navigation system<sup>†</sup>** – with DVD mapping and 7 inch Touch-screen controls for postcode entry, audio, automatic climate control, Bluetooth<sup>®</sup> telephone connectivity and (where fitted) JaguarVoice<sup>™</sup>.

**CATS<sup>™</sup> (Computer Active Technology Suspension)** – co-ordinates the best possible balance between ride and handling by analysing road conditions and making up to 3,000 adjustments every second to the suspension settings via electronically controlled dampers.

**Television tuner** – For 7 inch Touch-screen (only available with Navigation system).

**Twin rear 6.5 inch LCD screens** (mounted in rear of front head restraints) with inputs for your own audio visual source and connections to (where fitted) DVD player and television tuner (only available with Jaguar premium sound system, rear multimedia controls, Softgrain leather with leather seat facings, recommended with rear sunblinds).

**Jaguar sound system** – with radio featuring EON, RDS, PTY, TA, single slot CD player automatic volume control, power amplifier and 8 speakers.

**Jaguar premium sound system** – with radio featuring EON, RDS, PTY, TA, single slot CD player automatic volume control, power amplifier and 12 speakers.

**Bluetooth<sup>®</sup> telephone connectivity<sup>††</sup>** – a Bluetooth<sup>®</sup> equipped Jaguar, enables hands-free use of your mobile phone at any time when the phone is in the car. Bluetooth<sup>®</sup> is compatible with a selected range of mobile phones from a number of different manufacturers.

**JaguarVoice<sup>™</sup> – Front voice control** - of audio, automatic climate control, Bluetooth<sup>®</sup> telephone connectivity and (where fitted) Navigation and Television tuner.

**Memory Pack** – memory function with three settings for driver's seat, exterior mirrors, steering column and foot pedals.

<sup>†</sup> Please consult your dealer for market coverage.

<sup>††</sup> The Bluetooth<sup>®</sup> word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Jaguar Cars Limited is under license.

## OPTIONAL FEATURES

MODEL AND ENGINES	EXECUTIVE (2.7D/3.0/4.2)	SOVEREIGN (2.7D/3.0/4.2)	XJR (4.2 Supercharged)	SUPER V8 (4.2 Supercharged)

<sup>▲</sup>Optional at no extra cost

<sup>■</sup>Standard and optional features availability differ from market to market. For full details please consult your price list, local dealer or visit jaguar.com

Please refer to the glossary below for a more detailed description of features.

#### GLOSSARY

**Comfort seats with leather seat facings (12/12 way)** – with electric driver's and passenger's adjustment, with driver memory.

**Softgrain ruced seats with leather seat facings (16/16 way)** – as standard seats plus electric adjustment to cushion length and vertical lumbar for driver's seat, embossed leapers on headrests, contrast piping, leather door panel inserts and leather armrest and insert.

**Cooled front seats** – in addition to heated fronts seats with perforated leather seat facings on front and rear.

**Electric rear bench seats** – heated with individual electric adjustment including recline, lumbar support head restraints and memory (only available with Jaguar premium sound system, rear multimedia controls and Softgrain leather).

**Electric twin rear seats** – heated with centre console, individual electric adjustment including recline, lumbar support, head restraints and front passenger seat adjustment from rear (requires Jaguar premium sound system, rear multimedia controls and Softgrain leather. Not available with Aluminium veneers).

**Navigation system** – with DVD mapping and 7 inch Touch-screen controls for postcode entry, audio, automatic climate control, Bluetooth® telephone connectivity and (where fitted) JaguarVoice™.

**CATS™ (Computer Active Technology Suspension)** – co-ordinates the best possible balance between ride and handling by analysing road conditions and making up to 3,000 adjustments every second to the suspension settings via electronically controlled dampers.

**Television tuner** – For 7 inch Touch-screen (only available with Navigation system).

**Twin rear 6.5 inch LCD screens** (mounted in rear of front head restraints) with inputs for your own audio visual source and connections to (where fitted) DVD player and television tuner (only available with Jaguar premium sound system, rear multimedia controls, Softgrain leather or with leather seat facings, recommended with rear sunblinds).

**Jaguar sound system** – with radio featuring EON, RDS, PTY, TA, single slot CD player automatic volume control, power amplifier and 8 speakers.

**Jaguar premium sound system** – with radio featuring EON, RDS, PTY, TA, single slot CD player automatic volume control, power amplifier and 12 speakers.

**Bluetooth® telephone connectivity**<sup>††</sup> – a Bluetooth® equipped Jaguar, enables hands-free use of your mobile phone at any time when the phone is in the car. Bluetooth® is compatible with a selected range of mobile phones from a number of different manufacturers.

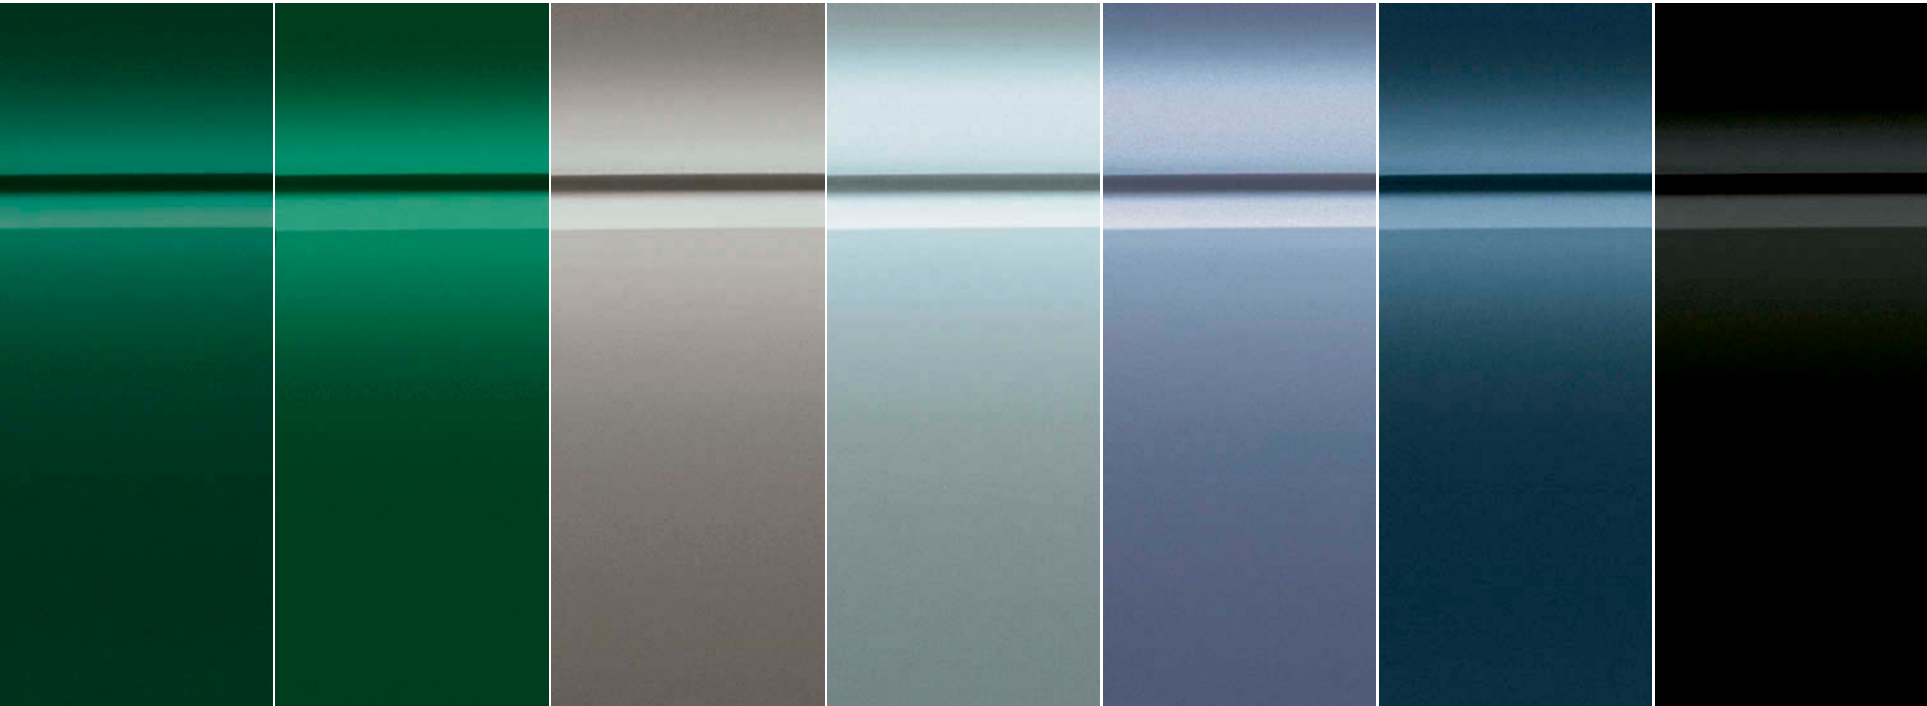

**JaguarVoice™ – Front voice control** - of audio, automatic climate control, Bluetooth® telephone connectivity and (where fitted) Navigation and Television tuner.

**Memory Pack** – memory function with three settings for driver's seat, exterior mirrors, steering column and foot pedals.

<sup>†</sup> Please consult your dealer for market coverage.

<sup>††</sup> The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Jaguar Cars Limited is under license.

# The XJ ownership experience. SERVICE, ASSURANCE, and PEACE OF MIND are all part of the pride of *owning your XJ.*

## **THE JAGUAR ACCESSORY RANGE**

Enabling you to personalise your car, to create a driving experience that is even more individually rewarding. All JAGUAR accessories are tested rigorously for safety and durability in the most arduous of climates and conditions. A comprehensive range of styling options, interior and exterior accessories, enabling you to tailor your XJ to suit your personal style.

## **BECAUSE ONLY THE BEST WILL DO**

An official JAGUAR dealer or Approved Service Centre can ensure that JAGUAR trained, specialist technicians, with access to the full range of JAGUAR approved parts and tools, will always be on hand to guarantee that every fitting, or repair, is carried out exactly the way JAGUAR intended. Your JAGUAR dealer or Approved Service Centre can also supply and fit JAGUAR approved accessories to personalise and add to the practicality and style of your XJ model.

## **SERVICE AND ASSURANCE**

Complete peace of mind, as well as Standard Price Servicing. Total Tyre Care includes everything from checking tread depth to wheel alignment and competitively priced tyre replacement. Seasonal Health Checks guarantee that, 365 days a year, your XJ stays in premium condition.

## **WARRANTY**

3 year unlimited kilometre warranty together with a 3 year unlimited kilometre Paint Surface Warranty and 6 year unlimited kilometre Corrosion (Perforation) Warranty. Extended warranties are also available. The options lengthen the standard 3 year unlimited kilometre warranty to cover a further 12, 24 or 36 months, giving unlimited kilometre warranty through years 4, 5 and 6 of ownership.

## **JAGUAR MAGAZINE**

From travel to fashion, chic to champagne, JAGUAR magazine is an owner's publication like no other. JAGUAR articles touch on everything from exclusive holiday destinations to fine wines, art to architecture. As well as features and interviews bringing all the latest news from the world of XJ and JAGUAR.

## **JAGUAR.COM**

The interactive jaguar.com website features helpful tools such as the dealer locator, model specifications - allowing you to see the car tailored to your specification and colour - and price lists; the latest information on all the JAGUAR models and a fascinating look into the passion and legacy that infuse the JAGUAR name.

## **JAGUAR FINANCIAL SERVICES**

Whether your requirements are business or personal, JAGUAR Financial Services offers maximum choice and flexibility with a wide range of financial and insurance plans tailored to your needs.

JAGUAR

## IMPORTANT NOTICE

Jaguar Cars Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and dealers are not agents of Jaguar Cars Limited and have absolutely no authority to bind Jaguar Cars Limited by any express or implied undertaking or representation. Illustrations in this brochure may include optional extras.

Comparisons are based on manufacturer's own data and testing.

## ENVIRONMENTAL NOTICE

Jaguar Cars Limited has a vision of being amongst the world's leading companies in demonstrating progress towards sustainability. We aim to do this by contributing to a better quality of life, with corporate citizenship at the very heart of our company, and by reducing our environmental footprint through innovative design and manufacturing, minimising resource and energy use. Environmental responsibility is a core value in Jaguar, and it is our policy to continually improve our environmental standards in all areas of business activity.

This brochure is produced using paper stock, which contains 50% recycled post consumer waste and controlled wood material from well managed forests. Pulps used are Elemental Chlorine Free.

## ENVIRONMENTAL CHOICE

The innovative use of aluminium construction is one tangible example of the commitment by Jaguar Cars Limited continually to pursue technologies that support efficiency and sustainability. In addition to its engineering and dynamic benefits, lightweight aluminium construction contributes to fuel efficiency and therefore helps create fewer emissions - supporting Jaguar Cars Limited's policy of responsible design and manufacture.
