

Z e n v o S T 1

50S

The Zenvo ST1 is designed to express the excessive power and performance of the car. The sharp lines are connected by muscular organic surfacing creating dramatic reflections.

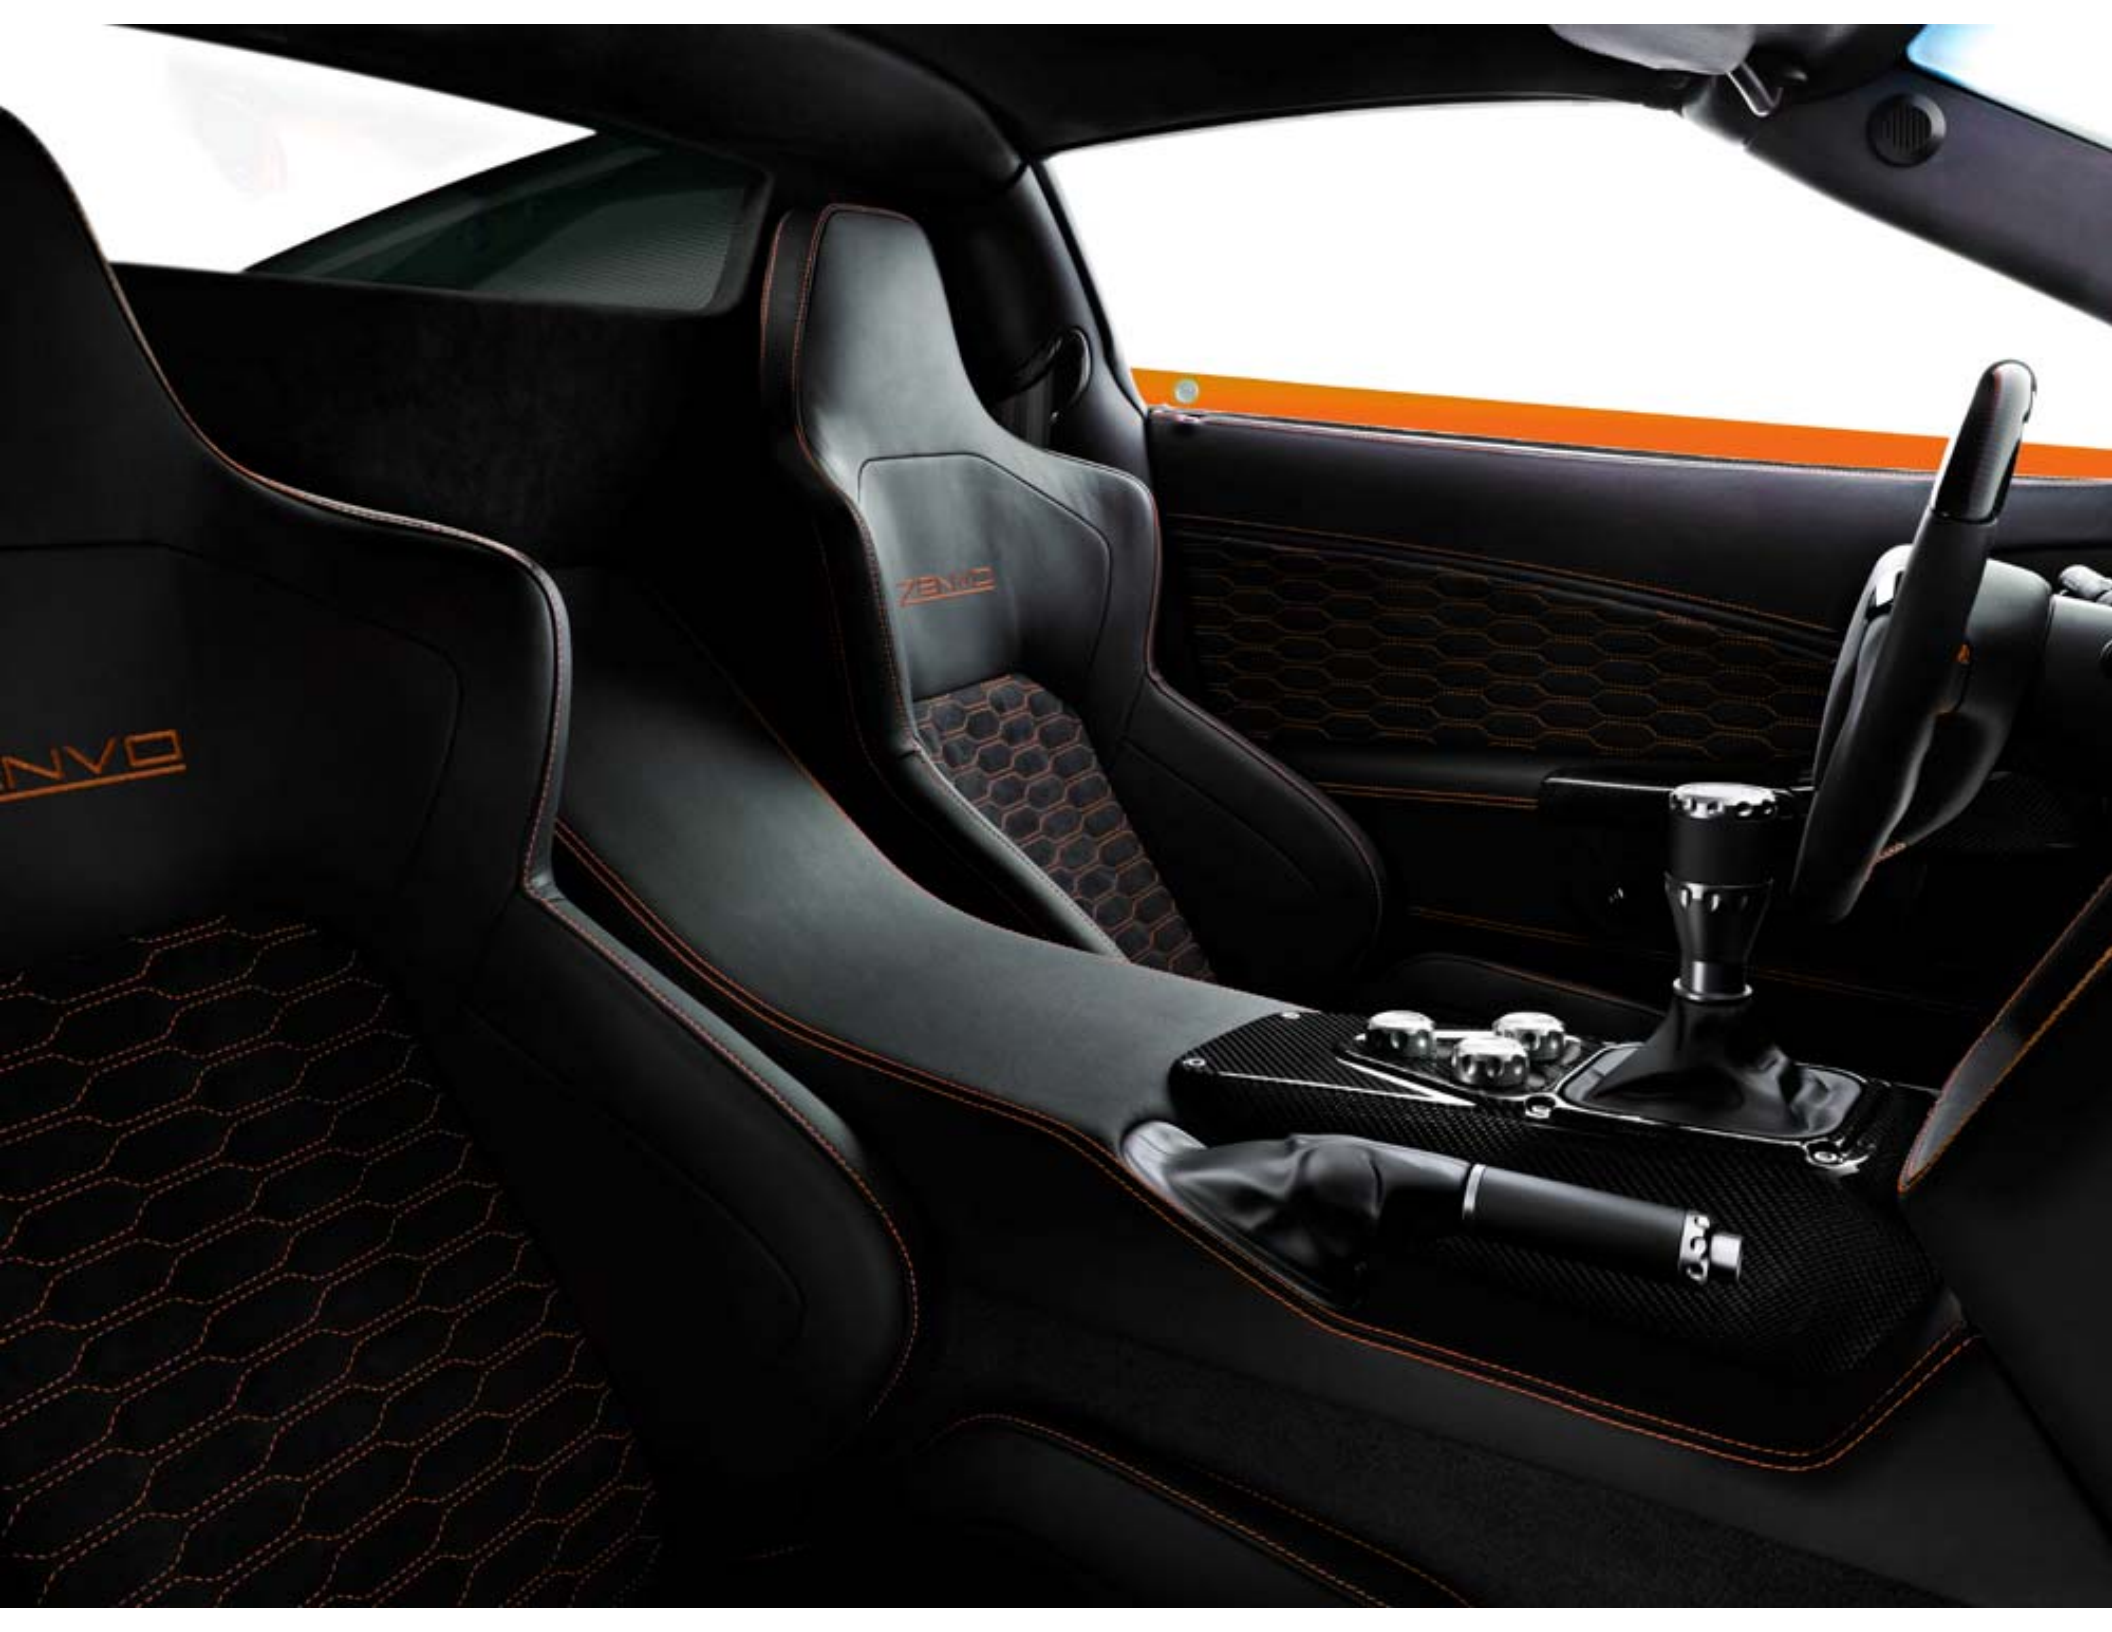

TWINCHARGED ENGINE
SUPERCHARGER & TURBO

0 - 100 KM/H : 3,0 SECONDS
TOP SPEED : 375 KM/H (LIMITED)

ZENVO

The front is designed around the hexagonal trademark Zenvo grille flanked by the front wings housing big air intakes for brakes and engine cooling. The intakes are raked back to minimize drag and at the same time making the side impression of the car more compact.

The rear spoiler mandatory for a car capable of extreme high speeds is partly integrated in the rear wing. It has a unique aerodynamic design following the raked shape of the rear end.

Interior
