LYKAN HyperSport 2014

“ A MODERN MACHINE WITH A TOUCH OF HUMANITY ”

W MOTORS

THE LYKAN

INTRODUCING THE LYKAN

"The Lykan is the most advanced species of wolves in the mythical legends, unlike the werewolf, it can control its transformation. Hidden under an elegant and luxurious mask, the Lykan is able to transform at any given time, should the need arise to show its power and leadership.

At W Motors, we have brought to life a new species of Lycans, our interpretation and vision of the modern werewolf, the most advanced wolf to date. Written with a "k", the modern Lykan is simply exceptional with its elegant yet aggressive look, able to transform at any given time into a beast... the most advanced of them all."

W MOTORS

THE BIRTH OF A MASTERPIECE

“A vision brought to life with desire, a passion without limits shared with those who believed that nothing is impossible. A historic collaboration with the legends of the automotive industry, creating an icon in the automotive world with the perfect balance between engineering and design, a masterpiece about to change our perception of perfection”

“ A modern machine with a touch of humanity ”

ADVANCED DESIGN

A Hypercar unquestionably cannot be dull to look at. It needs to be beautiful, wild, elegant yet extreme looking, or a combination of all those and more.

"A W Hypercar is all about drawing spontaneous and fresh lines then thoroughly refining the resulting surfaces, so you get to create pure mechanical emotions which all of us, car lovers, want to feel."

Anthony Jannarelli
W Motors Design Director

THE LYKAN IS BORN

A vision brought to life with desire, be it the design, the performance or the technology, the Lykan is absolutely distinctive in every single way.

A UNIQUE DESIGN

A masterpiece about to change our perception of perfection.
Meticulously designed to be different.

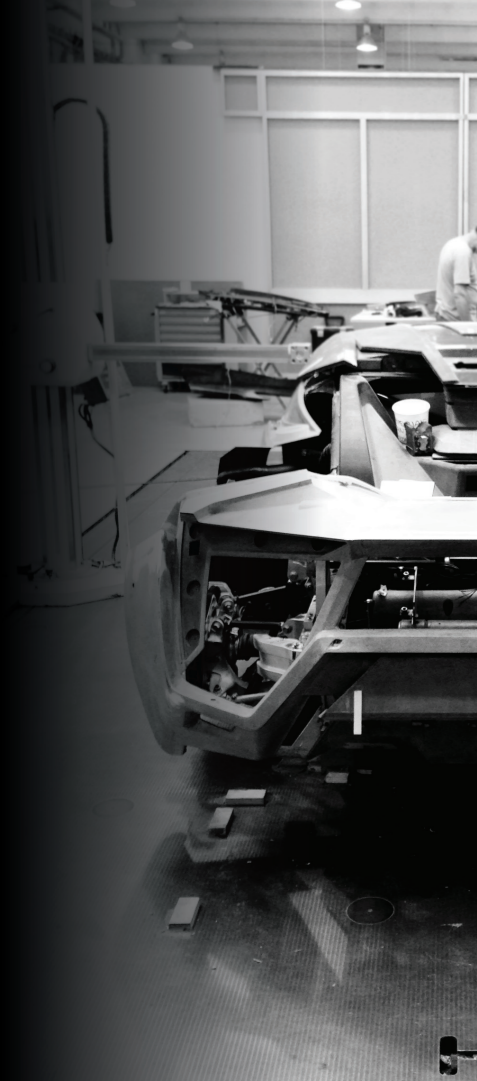

EXCLUSIVITY

The Lykan is so unique and rare, a dream so hard to reach, an icon in the automotive world.

DEFINED BY DETAILS

The body is fully made from carbon fiber, hand crafted sheet by sheet with passion and expertise by the legendary masters of this industry. Making sure that every Hypercar coming out from our facility is simply unique.

BORN TO PERFORM

The engine is fifty percent of everything that matters about a Hypercar, with the Flat 6 twin-turbo, 770hp and 1000NM Torque, engineered by RUF Automobile in Germany, giving the perfect balance between power, torque and speed, creating an exceptional driving machine for a unique driving experience.

DYNAMIC ENGINEERING

Every single line on the shell of the Lykan has been designed with precision through meticulous engineering and testing. The result is an incredible machine offering exceptional road performance.

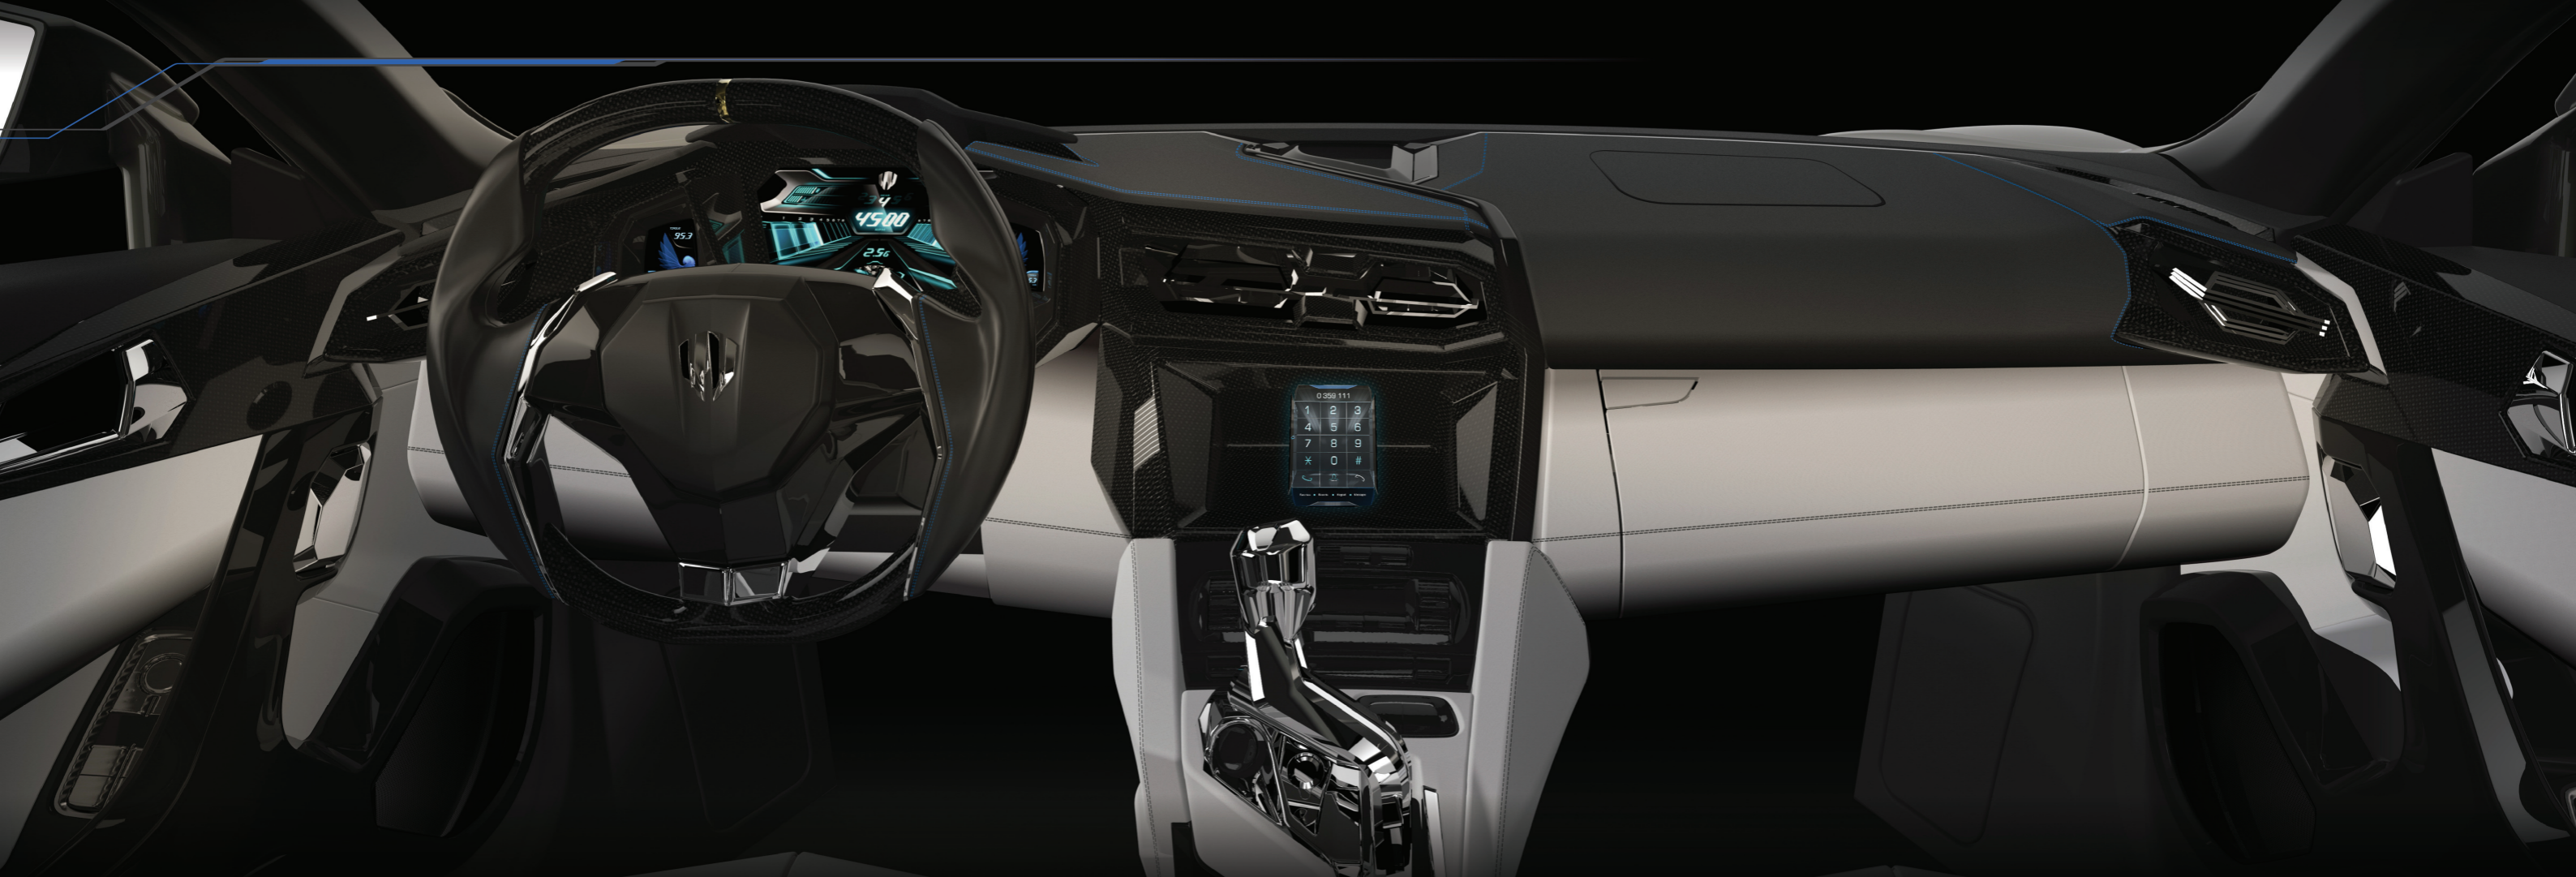

MODERN LUXURY

An exceptional interior designed for ultimate comfort and practicality. A high-end, advanced interior design with a touch of modern luxury. Completely customizable with endless color and material combinations, accommodating a unique steering wheel, digital cluster and holographic display.

A SPECIAL KEY & W SEATS

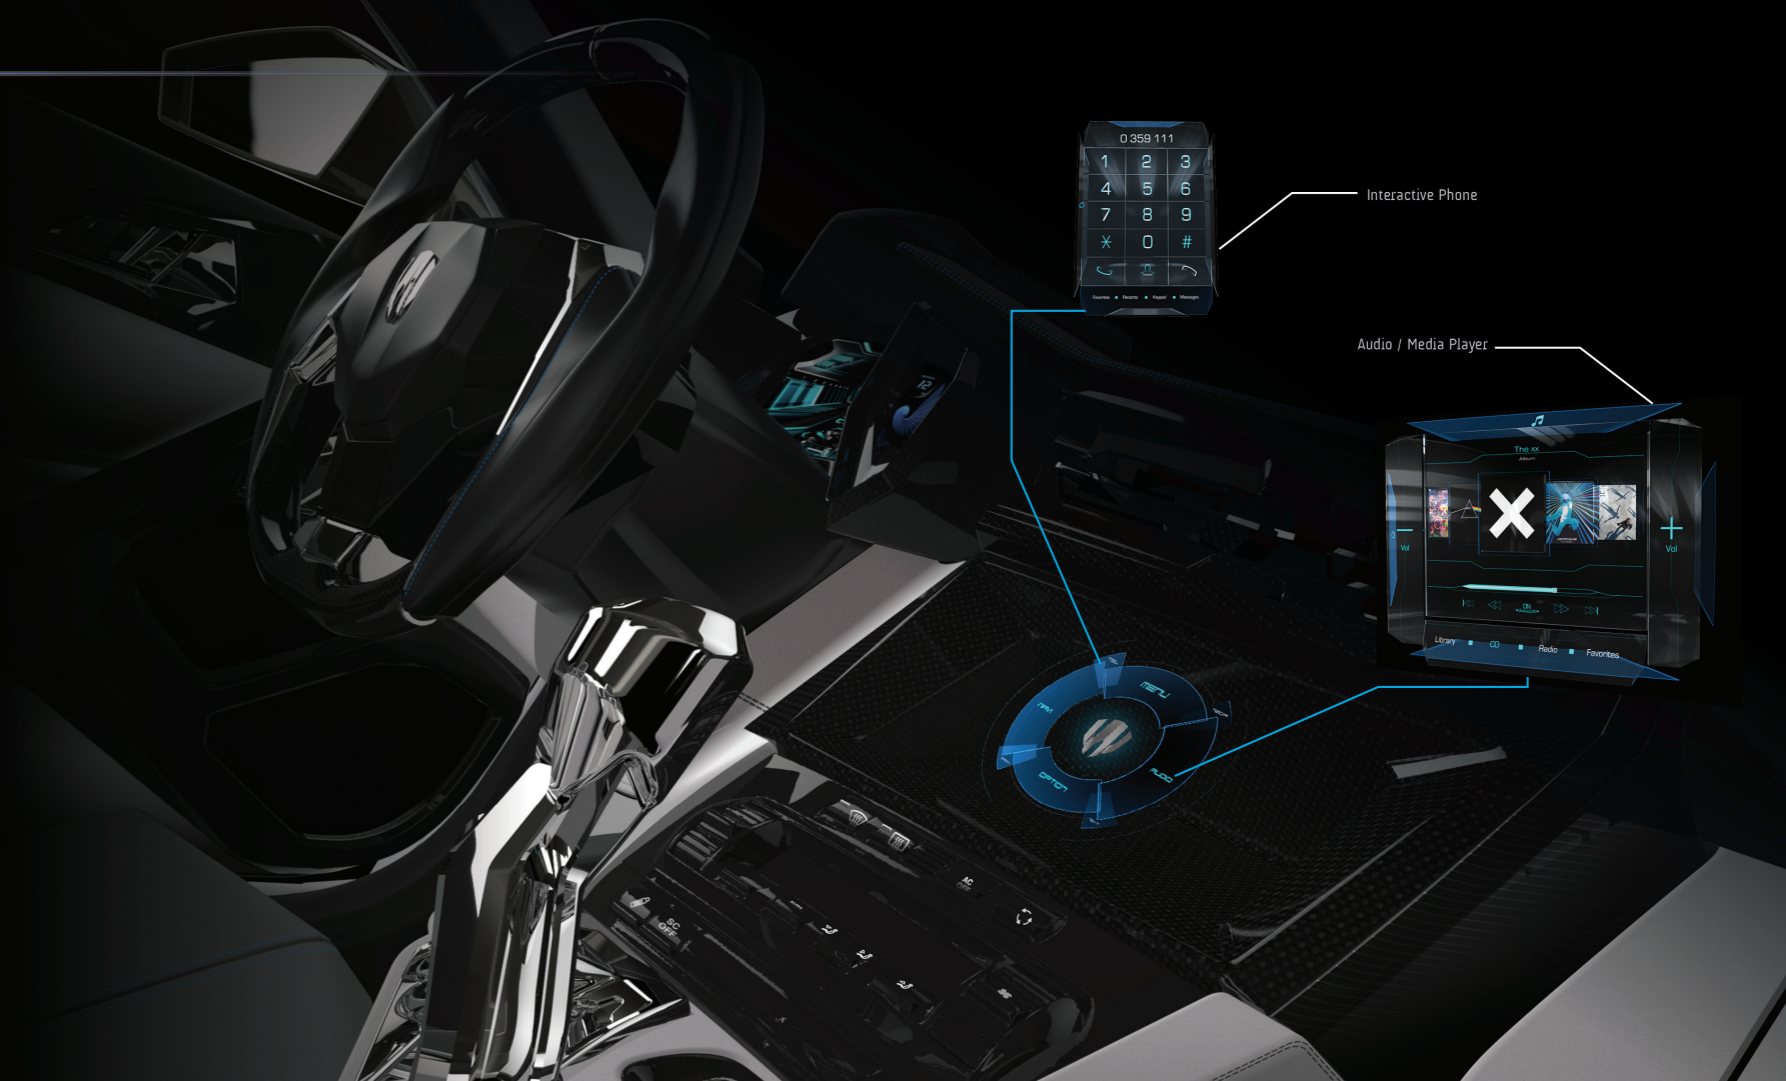

The key of the car is designed following the aggressive styling cues of the Lykan. Using the most refined and modern materials.

The exclusive modern seats of the Lykan are developed for ultimate comfort and safety. Designed with a wrap around carbon fiber body shell, keeping the drivers' body and neck stable when driving at high speeds.

ADVANCED TECHNOLOGY

The first Holographic Mid-Air Display system with interactive motion, giving the driver and passenger full interaction with the multimedia interface of the Lykan as well as other vehicle control systems. The Lykan is simply years ahead in innovation and exclusivity.

INTO THE FUTURE

In collaboration with ID4Motion on a new digital cluster. A unique customizable performance screen is designed to give quick access to key driving information, from several engine performance and efficiency parameters. When virtual meets reality.

REDEFINING LUXURY

The most refined and luxurious materials are integrated inside and outside the vehicle. The Lykan comes with Diamond incusted LED headlights for a lavish and luxurious finish.

A variety of precious stones are also available such as Diamonds, Yellow Diamonds, Rubies, Sapphires and Emeralds, fully customizable and integrated into the vehicle upon request. (220 Stones per light, 13k)

FRANCK MULLER GENEVE

Limited Edition 7 Pieces Only - Dedicated to Lykan Owners

This Lykan «very limited edition» beautifully blends the elegance of the Franck Muller watches with the sportsmanship of the Lykan Hyper Sport.

This new exclusive timepiece opts for an intense and sporty look. Its large case (47.80mm) houses a manufactured automatic movement offering the chronograph functions and a fly-back hand for a power reserve of 42 hours. Both the watch and the car are entirely hand-manufactured, providing these two artworks their unique characteristics.

Car and watch are made of the same materials: titanium, carbon and aluminium, highlighting thus the futuristic aesthetic of this exclusive collection.

CONCIERGE SERVICE

The Global Elite Membership is tailor made to suit your individual needs and requirements. This exclusive and prestigious membership for the Global Elite level gives you access to the most lavish lifestyle you may desire, including insider and expert information to get you what you want wherever and whenever you want it. At a moments' notice your personal concierge can secure you access to an exclusive party, arrange an amazing event on your behalf, make sure you have a car ready for you when you finish your meeting.

Absolutely anything you need attending to – The Quintessentially Elite team always goes that extra mile to ensure total satisfaction.

All you have to do is ask...

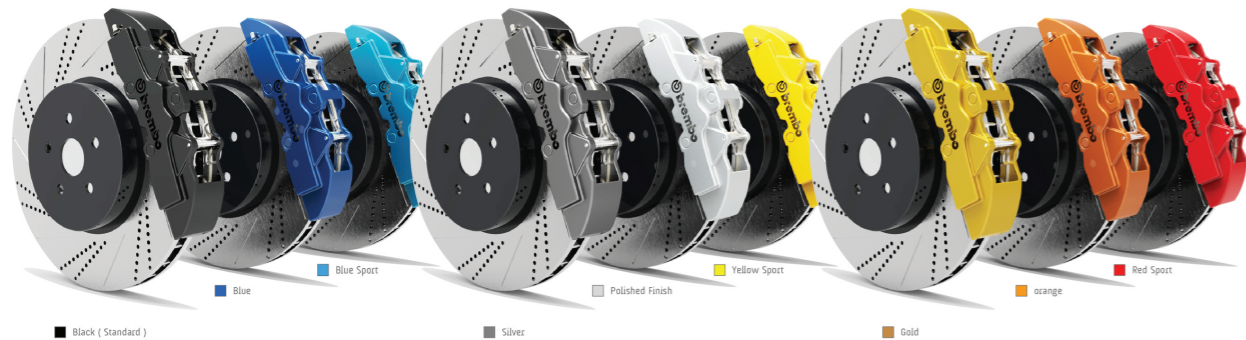

LYCAN

WHEELS & CALIPERS

The Lightweight Aluminum Wheels offer incredible weight savings for owners wanting to increase performance. By using forged alloy, our engineers and partners at Zelle Engineering in Italy have stripped out the bulk, while maintaining strength. The five-spoke Lightweight Aluminum Wheels designed by W Motors, have a unique look and offer pure performance.

SPECIFICATIONS

BODY

- Coupe Only
- Carbon Composite Body
- Unique W Motors Styling
- Exclusive Exterior Paint Schemes

ENGINE

- Boxer Type, 228.6 in³, 3746 cc Flat 6
- Twin Turbocharger with Independent Intercooler
- Mid-Rear mounted engine
- Rear Wheel Drive
- Fully Catalyzed, stainless steel exhaust system with active bypass valves
- Max Power 582KW (780hp) at 7100 rpm
- Max Torque 960Nm at 4000 rpm
- Acceleration 0-100 km/h (0-62 mph) in 2.8 sec
- Acceleration 0-200 km/h (0-125 mph) in 9.4 sec
- Maximum Speed 395 km/h (245 mph) (dependent on the gear ratios)

TRANSMISSION

- Six Speed Sequential Gear
- Seven Speed Dual Clutch PDK
- Limited Slip Differential
- Transversely Rear Mounted

SUSPENSIONS

- Front Axle: McPherson-strut, anti-roll bar
- Rear Axle: Multi-link suspension, horizontal coil over shock absorbers, anti-roll bar

BRAKES

- 6 piston aluminum mono-bloc calipers ventilated, cross drilled ceramic composite discs
- Brake Disc Diameter: 15 / 15 in (380 / 380 mm)
- Brake Disk Thickness: 1.3 / 1.3 in (34 / 34 mm)
- Anti-lock Braking System, Bosch ABS 8.0
- ABS, ASR and ABD
- Traction Control (TC)

INTERIOR

- Carbon Fiber Center Console finish
- Dual-Stage Driver/Passenger Front Airbags
- Electric Exterior Mirrors
- Heated Rear Screen
- Automatic Temperature Control
- Trip Computer
- Bluetooth® Telephone Preparation
- Satellite Navigation System
- Rear View Camera
- Alarm (with volumetric and tilt sensor) and immobilizer
- 3G Internet Router
- Remote Control Central Door Locking and Boot Release
- Tracking Device (Upon Request)
- LED Ambient Lighting
- 9" Holographic Mid-Air Display with Interactive Motion
- Gesture Recognition (Virtual Sensors)
- Customizable Digital Dashboard (ID4Motion)
- Premium Sound System
- Integrated Hard Drive
- Mp3 Media Player

SEATS

- Special W Motors Seats with Carbon Fiber Shell
- Integrated Side Airbags

DIMENSIONS

- Length: 4495 mm (175 in)
- Width: 1995 mm (76.5 in)
- Height: 1180 mm (45 in)
- Wheelbase: 2625 mm (103.3 in)
- Front Track: 1506 mm (59.3 in)
- Back Track: 1585 mm (62.4 in)
- Estimated Kerb Weight: 1400 kg

WHEELS & TIRES

- Lightweight forged aluminum wheels
- Front Wheels: 8.5" x 19"
- Back Wheels: 12.5" x 20"
- Front Tires: 255/35 ZR 19
- Back Tires: 335/30 ZR 20

FUEL CONSUMPTIONS

- Liters/100km (mpg)
- Urban: 20.0
- Non-Urban: 9.9
- Combined: 13.5
- CO2 Emission (g/kg): 311
- Efficiency Category: G

0 - 100 KM/H IN 2.85SEC

IMPORTANT NOTICE

Pictures and Word mark

The cars illustrated in this brochure may include additional options not featured in this brochure or that are only available at extra cost. The Bluetooth word mark and logos are owned by the Bluetooth SIG inc and any use of such marks is under license.

Updates

W Motors is constantly seeking ways to improve the specification, design and production of its cars and alterations take place continually. Whilst every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current products options, accessories or specifications, nor does it constitute any offer for sale of any particular car, product, option accessories and/or services or combination of the same.

This brochure is merely an indication of the kinds of W Motors products and services which may be available from time to time. The contents of this brochure represent W Motors business as a whole. Text and photographs may relate to models, specifications, options, accessories and/or services that are not available for sale in some countries or which have been superseded or are otherwise no longer available. All images shown are not reflective of the final car.

Performance results

Performance results, fuel consumptions figures and CO2 emissions date quoted in this brochure are obtained under controlled test conditions (in accordance with applicable regulations) and may vary depending on the specification of the particular car, road and environmental conditions and driving style. Tire choice may also impact on performance results, fuel consumption or CO2 emissions.

W Motors strongly urges that all speed laws be obeyed and that safety belts be worn at all times.

The weight of the car will influence the level of CO2 emitted and as a result, cars with higher levels of specification and factory fit options may emit higher levels of CO2. However, Vehicle Excise Duty is charged according to the weight of and CO2 emissions of the standard car, as published in this brochure. All petrol engines are fitted with a catalytic converter.

Distributors and dealers

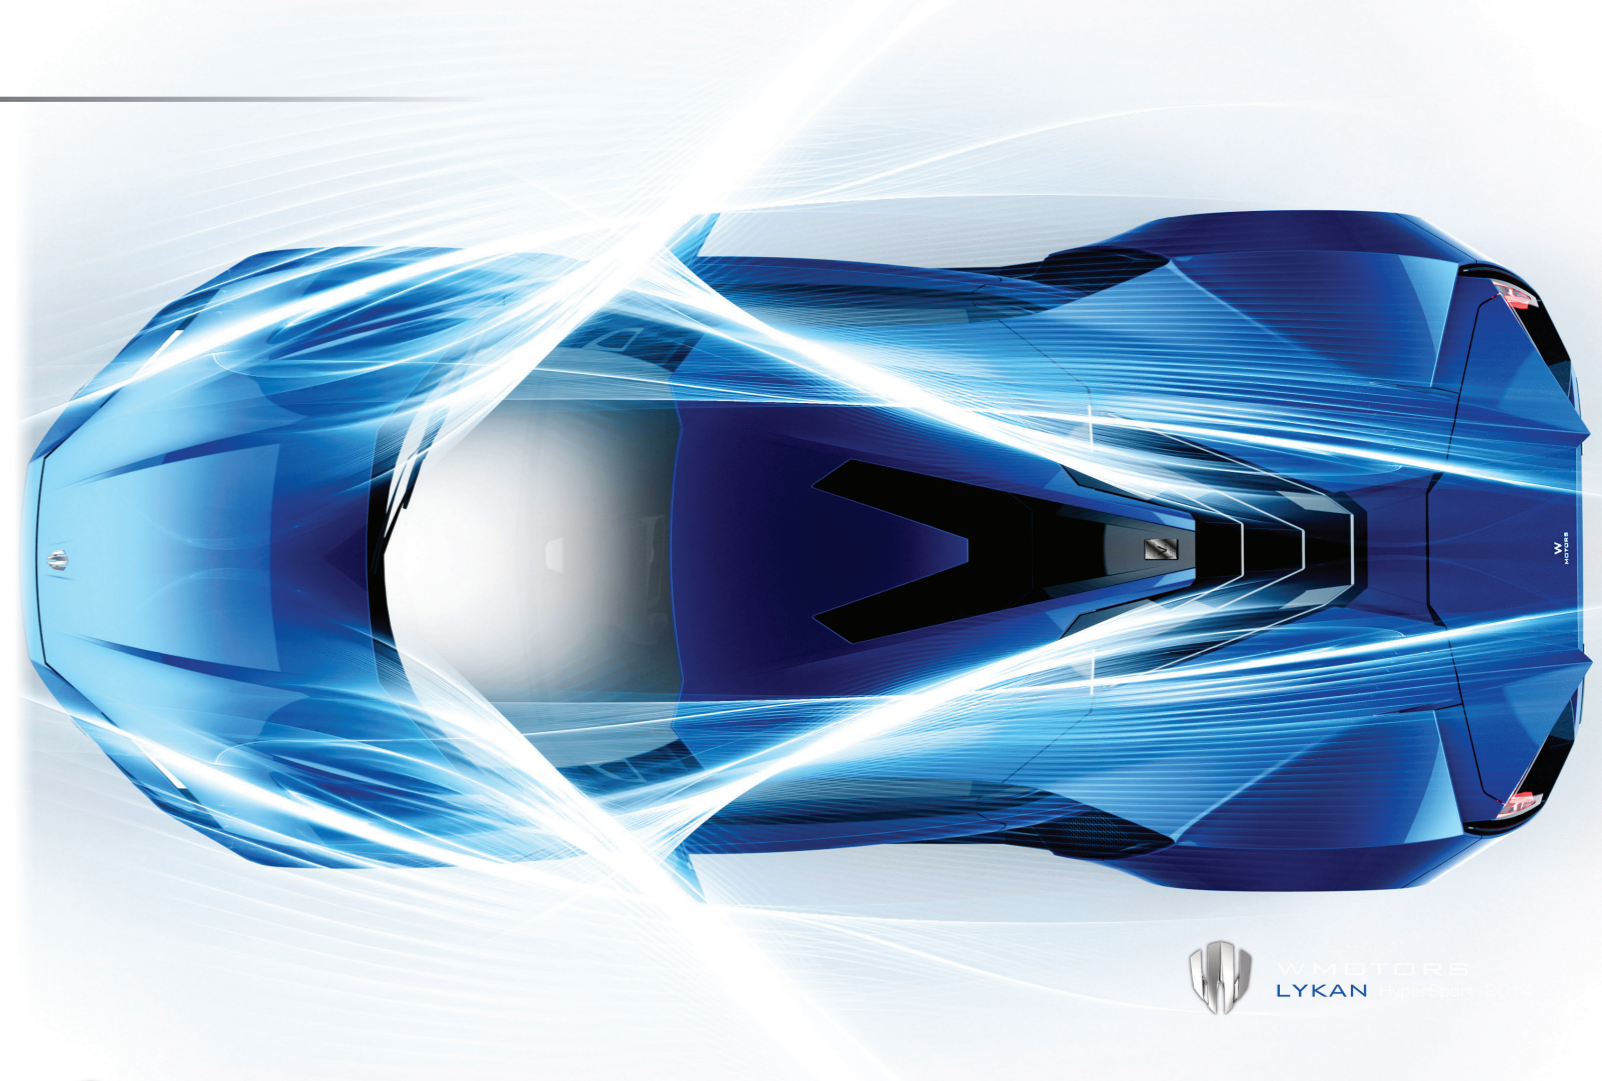

Distributors and dealers are not agents of W Motors and have absolutely no authority to bind W Motors by any express or implied undertaking or representation. Sales by dealers or agents are subject to their terms and conditions of sale.
